Peters Imports First US Distributor to Offer Andrea Stainer Chocolates of Tuscany, Italy

Grandville, MI – September 18, 2009

Peters Imports is pleased to be chosen as the first US distributor for one of the fastest growing chocolate companies in Italy, Andrea Stainer Chocolates.

Andrea Stainer delivers perfection in chocolate with excellent taste, strong visual impact, and great creativity. Their patented fusion technology blends unique flavor combinations with rich cocoa flavor to create a range of handcrafted chocolate bars and dessert mixes. Their desire to bring these middle-high positioned products to the US led them to Peters Imports whose dominate customer base of specialty food shops, gift and beverage shops matches their target market.

Stainer produces Liqueur Bars that can be sold anywhere in the US, Chocolatetherapy Bars with plant extracts and therapeutic properties, and Origins Bars containing exceptional single origin cocoa seeds from Madagascar, Venezuela, Ecuador, Santo Domingo, Peru, or Papua Guinea. Their Fruit Chocolate Bars are infused with hints of lemon, raspberry, pineapple or orange. The Flowers Chocolate Bars imply a hint of saffron, rose, viola or poppy seeds. Stainer Mousse, Pudding and Gelato mixes are delicious gourmet desserts that require no cooking and are ready in minutes.
